VICTOR H. GREEN
INTRODUCTION

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels in all of the large cities East of the Mississippi River, but other Classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon.

There are thousands of places that the public doesn't know about and aren't listed. Perhaps you might know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists.

You will find it handy on your travels and up to date. Each year we are compiling new lists; as some of these places move, or go out of business and new business is started.

All of our Advertisers have been selected with care and are the best representative and responsible in their field. One will always find them willing and ready to serve the best that there is.

When you are traveling mention "The Green Book" so as to let these people know just how you found out about their place of business. If they haven't heard about This Guide, tell them to get in touch with us.

If this Guide is useful, let us know, if not tell us also, as we appreciate your criticisms.

If any errors are found, kindly notify the publishers so that they can be corrected in the next issue.

Published yearly in the month of April by Victor H. Green. Executive & Advertising office at 938 St. Nicholas Ave., New York, N. Y. Advertising office at 938 St. Nicholas Ave., Tel. ED. 4-3425. Copyrighted 1938 by Victor H. Green. Manuscripts submitted for publication should be sent to 938 St. Nicholas Ave., New York, N. Y., and must be accompanied by return postage. No liability can be assumed for the loss or damage to manuscripts although every possible precaution will be taken.

Subscription: Twenty-five cents per copy.
Advertising: For rates, write to the publisher.

Last forms close on March 15th. We reserve the right to reject any advertising which in our opinion that does not conform to our standards.

Victor H. Green
Publisher
938 St. Nicholas Ave.
New York, N. Y.

Dear Sir;

It is a great pleasure for me to give credit where credit is due. Many of my friends have joined me in admitting that "The Negro Motorist Green Book" is a credit to the Negro Race. It is a book badly needed among our Race since the advance of the motor age. Realizing the only way we knew where and how to reach our pleasure resorts was in a way of speaking, by word of mouth, until the publication of "The Negro Motorist Green book". With our wishes of your success, and your earnest efforts. We earnestly believe "The Negro Motorist Green Book" will mean as much if not more to us as the A. A. A. means to the white race.

Respectfully Yours,

Wm. Smith.

Nov. 5 1938
SAFE DRIVING RULES

1. Watch out for the driver who crosses the White Line.
2. When the other car passes you, watch out that he doesn’t cut in on you.
3. Watch out for the driver who doesn’t know any better than to pass on a hill.
4. Even when the light is Green, look out for the reckless driver coming from left or right, who is ignorant that the Red light is against him.
5. Watch the driver ahead — you can’t be sure whether or not he’ll signal when he turns.
6. Even on highways, look out for parked cars.
7. Watch the car coming down the steep hill towards you. Maybe the driver doesn’t know enough to go into second.
8. Don’t assume that the other fellow has good brakes.
9. At night look out for pedestrians walking on your side of the highway.
10. On Icy Roads look out! Some drivers don’t know any better than to brake suddenly on ice.
11. Going over a hill, be ready for drivers who may be fools hardly as to make a turn across the road.
12. When you are passing, look out for the car that may be suddenly pulling out to pass just ahead of you.
13. Maybe the cop won’t catch the car that passes you at 80, but “sudden death” is liable to.
14. On a three lane highway, watch out for the driver who thinks the middle lane is his exclusively.
15. Remember that Junior thinks that the ignition key is something to play with.

EXPLANATION

We are making this Guide as near complete as possible, until such time as we can get the information from the different sections of the country. The 1939 issue will contain the western section of the United States and will be complete.

The business classifications listed have been arranged under the different cities and towns, so that one won't have any trouble finding what they want.

CONNECTICUT

A new express highway, The Merritt Parkway, about 40 miles in length connecting with the Hutchinson River Parkway in New York State will carry one clear on the other side of Norwalk and connect with Route No. 1 the old Boston Post Road. By using this road one will eliminate the necessity of going through so many small towns in Connecticut and being held up by lights. This highway has been completed thus far and in time will take one into Boston Mass.

Motorists traveling from the South or West going to the New England States or reaching New York by way of the Holland Tunnel or the Geo. Washington Bridge can use the West Side express Highway connecting with the New Hendrick Hudson Parkway, north on Saw Mill River Parkway and at the Hawthorne Circle connect with the Hutchinson River Parkway and then the Merritt Parkway. By using these routes one finds very few lights and doesn’t have to enter any of the towns, hence much time will be saved.

<td>Watch out for a new type signal light granded 3652 on the highways of Baltimore. They are designed for high speed traffic and the main beam can be seen for 2000 ft. on a bright day, while the secondary beam can be seen at shorter range. Each lens has a prismatic band which is used to intensify the beams. The prismatic bands in the Red Lens are horizontal. The Amber Lens is diagonal while the Green Lens is vertical. By having these bands at different angles one can tell at a distance which light is being read.</td>

“THE AUTOMOBILE AND WHAT IT HAS DONE FOR THE NEGRO”

by BENJ. J. THOMAS

FORMER STATE EXAMINER

and

PROPRITOR OF THE BROADWAY AUTO SCHOOL

In 1890 the Automobile first made its appearance in the United States, and since that time up until to-day, the automobile has been steadily increasing with leaps and bounds, and till today the automobile industry is the second largest industry in the world, giving employment to more people than any industry in the world.

In 1937 there were about thirty million automobiles being operated in the United States alone. This amount being made up of pleasure cars. Added to this there are millions of trucks in the commercial fields, Vans in the local and long distance moving fields, and millions of buses in the transportation fields.

The automobile has been a special blessing to the Negro, for the Negro is getting better wages and doing more business in the automobile industry than any other industry in the world. Take for instance 25 years ago, the average young colored man was either doing porter work, bell hopping, running an elevator or waiting on table, and the average wage at that time was $5.00 per week. That same young man as soon as he learned to operate an automobile, instead of paying him $5.00 per week, he would begin at not less than $15.00 per week, and as he progressed and became a mechanic his wages would be raised to $25.00 per week until today, men that are good mechanics and can master the trade, both as a chauffeur and mechanic, are being paid anyway from $25.00 to $50.00 per week, therefore, taking men out of the servant class and placing them in the mechanical class.

In New York City alone, one third of the Mechanical work is being done by Colored men, and the same that applied to New York, applies to all other cities and towns through the country. There is one automobile manufacturing company alone that employs 5000 Colored men, saying nothing about the thousand of Colored men that are employed by other automobile companies.

The Negro owns and controls a large percentage of the taxicab business throughout the country, and the garage and repair shop business is held in the same proportion.

AUTUMN 2016  
73
BAD DRIVING WASTES FUEL

With the high tax on gasoline in the different states, it behoves all motorists to get the most out of his car. This is particularly true of the newest cars because of their great capacity for performance. Many driving customs should be revised when driving for milage with the modern car. With the automatic choke, if the car is backed out of the driveway, it shouldn't be left running; but switched off. If this precaution is not observed the engine will load up and cause the wasting of a lot of gas.

More and more drivers shoot their machines up to 20 miles per hour in low and more than 30 in second. Also this spurt in low gears serves no good purpose at all. As soon as the car is rolling along easily in low it should be shifted to second. This same rule should be applied when shifting from second to high.

The good care that you give your car regularly also plays an important part. New spark plugs, keeping the ignition timing up to its highest point of efficiency will cause improvement. The proper lubrication is important and the right oil in the crank case. The oil filter is important so that the engine doesn't suffer from increased wear. Tires should be well inflated and seeing that the brakes don't drag.

Clutch slippages also wastes fuel. The braking of a car causes the lost of fuel as the brakes shouldn't be applied suddenly when approaching a traffic light or halting for an emergency. One should always be on the watch for same as it requires added fuel to build up momentum.

HOW TO KEEP FROM GROWING OLD

Always race with locomotive to Crossings. Engineers like it; it breaks the monotony of their jobs.
Always pass the car ahead on curves or turns. Don't use horn, it may unnerve the fellow and cause him to turn out too far.

Demand half the road—the middle half. Insist on your rights.

Always speed: it shows them you are a man of pep even tho an amateur driver.

Never stop, look or listen at railroad crossings. It consumes time.

Always lock your brakes when skidding. It makes the job more artistic.

In sloppy weather drive close to pedestrians. Dry cleaners appreciate this.

Never look around when you back up; there is never anything behind you.

Drive confidently, just as tho there were not eighteen million other cars in service.

(Continued)

There is a great many branches to the automobile industry, mainly, the manufacturing, the painting, repairing, driving, cars for hire, express business, tires and repairing of tires, gasoline filling and oiling stations, radiator repairing, upholstering, body and fender repairing beside the long distance hauling of all goods and the transportation of coal from the mines along with local moving and jobing.

You will find the Negro doing his part in each and every branch of the industry in certain sections of the country, where the so-called jim-crow laws are being enforced. Negroes are operating bus lines to transport passengers as they prefer to ride in a bus rather than be jim-crowed, and that, of course, give employment to a great many persons, both chauffeurs and mechanics in this same section. Persons that can afford an automobile use their cars exclusively for transportation for the same reason. And taking it as a whole, the Negro has made, and is making more money in the automobile industry than any other industry in the world. And the future looks bright, as the automobile business has just begun.

"The Negro Motorist Green Book" a Motorist and Tourist Guide for 1938 is ready for circulation and is yours for the asking.

You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Where shall we go over the week end or spend our vacation are two of the many questions that people are asking. In order for one to know where to go and to stop without worrying a long time ahead; we have made the Green Book larger and as your medium so as to give you this information.

Perhaps you might know of others who would be interested in receiving a free copy. If so you might list a few of your friends; send it along with your name and address and we will be glad to send them copies.
