SOWING GREEN BAGS

To the *Bag*:

I read with interest the article “In Search of Green Bags,” 21 Green Bag 2d 7 (2017). I had previously seen the photograph of the Harvard Law School students with their green bags.

I suggest that you should undertake to have some green bags made following the original design, as accurately as can be done, to offer to your subscribers.

Should you do so, you have one sale already.
