

EX ANTE

OUR MISTAKE

It is heartening to hear that thoughtful people are still reading papers we published long ago, even if the news comes to us as a result of our own failure to get things right the first time. That is why we are grateful to hear from careful reader Ilisabeth Bornstein of Bryant University:

I was reading Orin Kerr's helpful 2007 article on "How to Read a Legal Opinion" and noticed a completely minor typo, if anyone is inclined to correct. On p. 58, right above "Understanding the Reasoning of the Majority Opinion," the word "though" should be "thought."

Professor Bornstein is correct, we are grateful, and we hereby correct that error at 11 Green Bag 2d 51, 58 (2007).
